EDUCATION

YEAR

Bachelor of Science

Sep 2018 – Jul 2023

Department of Computer Engineering (100 % English)

Muğla Sıtkı Koçman University, Muğla, Turkey

Graduate → GPA: 3.61/4.0

English Preparatory Program

Sep 2018 – Jun 2019

Muğla Sıtkı Koçman University, Muğla, Turkey

Grade:84/100

EXPERIENCES

Software Engineer

Apr 04 2023 – now

Backend Development

Yapikredi Teknoloji,

Istanbul, Turkey

- I am part of a team that supports the transformation and development of projects by adapting to the evolving and renewing technologies in the finance and banking sector. I work on development tasks using Java, utilizing the Spring and Spring Boot frameworks, and implement enhancements with technologies such as Hibernate, Redis, Apache, Elastic, and Dynatrace. I use REST and SOAP as data transfer method. I have experience working with both monolithic and microservices architectures. In addition to backend development, I also contribute to the web development side, utilizing JSP and JavaScript. On database side, I use PLSQL with Oracle.

Summer Intern

Jun 15 – Sep 15 2021

Web Development (Full Stack)

GEFESOFT, Mugla, Turkey

Took part in web projects in company. Worked on front-end and back-end sides.

- AI based service website that helps individuals set their base for pricing for every project based on a questionnaire they have to answer, which will then display a fitting price depending on the skills, project nature, time period, phases the project as to go through before being production ready and the skillset and experience of the employee. It uses MySQL as the database for the service, and PHP for the backend as well as the middleware to the database, using a multitude of frameworks for various function like Stripe for payment, SOAP for communication between the frontend and the backend, as well as fundamental web technologies for the frontend.

Volunteer Intern

Jun 27 – 31 Aug 2022

Backend Development

OPTIYOL, Ankara, Turkey

- Developed an API by using Django REST Framework and the project dockerized by using Docker. PostgreSQL is used for the database management system and Redis is used for the Caching system. JWT is used for the authentication. We took advantage of Bitbucket as version control system and Jira to manage our agile.

Part Time Student Assistant

Nov 2021 – Mar 2022

IT Department/Remote (Online) Education Center

Muğla Sıtkı Koçman University Muğla, Turkey

COMPUTER SKILLS

Programming:	Java, Python, SQL, Kotlin
Database Management:	Oracle, MySQL, MongoDB, PostgreSQL
Web Programming:	PHP, HTML-5, CSS, Sass, Javascript
Version Control:	GitHub(GitHub), Bitbucket, GitLab
Operating System:	Windows, Linux
Framework:	Spring, Spring Boot, Hibernate, Django REST
Library:	NodeJs, ExpressJs
Software Platform:	Docker, Elastic, Dynatrace

COURSE/PERSONAL PROJECTS

Database Management:	Amazon Laptop Sales Database (MySQL)
API Development:	Sending SMS API (Java, Spring Boot, POSTGRESQL, Microservice Ar.)
Full Stack Programming:	Book Store (PHP), Online Chat App (PHP), User Validation App (PHP).
Mobil Application Programming:	Service Application (Java, Firebase), Anonymous Chat App(Kotlin, Firebase)

CERTIFICATES / COURSES

Certificate of Achievement

- Cisco Networking Academy Introduction to Wi-Fi (May 27 , 2019)

Certificate of Achievement

- Cisco Networking Academy Introduction to Cyber Security (Jun 17, 2019)

Certificate of Completion

- Udemy MERN Stack Development Course (Aug 2021)

Certificate of Completion

- GEFEASOFT Web Developer Internship (Sep 2021)

Certificate of Completion

- Website Speed Optimization - Technical SEO (Sep 2021)

LANGUAGES

German: Beginner

English: Intermediate

Turkish: Native
